

Designs of Distinction[®] Introduces Full Size Rigid Panels

Chicago, IL - Designs of Distinction[®], a leading manufacturer of premium decorative wood and metal components, announces the launch of its new **Full Size Rigid Panels**, designed to deliver the **perfect balance of aesthetics, strength, and stability for residential and commercial interiors.**

Measuring **3/4" thick x 4-ft x 8-ft**, these panels feature a **solid tambour face (A)**, a **1/2" plywood core (B)**, and a **cross-grain hardwood veneer backer (C)**, combining the timeless look of wood with the structural advantages of engineered construction. The result is a versatile panel ideal for cabinetmaking and furniture design.

Key Features & Benefits of Full Size Rigid Panels:

- **Balanced & Stable:** The cross-grain hardwood veneer backer counters tambour movement, reducing the risk of warping, cupping, or cracking in varying environmental conditions. The 1/2" plywood core provides strength and dimensional stability without the weight of solid wood construction.
- **Design & Texture on the Face:** The beaded face adds depth and texture, making these panels a standout choice for a variety of design styles - from traditional to contemporary.
- **Standard Thickness:** At 3/4", the panels integrate seamlessly into standard cabinetry and millwork with no need for special adjustments.
- **Finished Back:** The hardwood veneer backer provides a clean, finished appearance for exposed applications like open shelving, islands, and freestanding furniture.
- **Sustainable Use of Materials:** Combines solid wood aesthetics (*tambour + veneer*) with engineered core (*plywood*), which is more resource-efficient than using solid hardwood throughout.
- **Cost-Effective Design:** By combining tambour, veneer, and plywood, the panels offer the premium look of solid wood with greater efficiency and value.

“These Full Size Rigid Panels bring together the beauty of wood tambour with the reliability of engineered plywood,” said Kathy Constantine, VP and Brand Founder of Designs of Distinction. **“Designers, cabinetmakers, and builders can now create doors for furniture and cabinetry with both confidence and creativity.”**

To request a sample, please email marketing@brownwoodinc.com. Full Size Rigid Panels will be on display at our upcoming events, including CMA National Conference, AWI Annual Conference, and NBMDA Annual Convention.

About Designs of Distinction[®] For over 25 years, Designs of Distinction[®] has been an industry leader in decorative wood and metal components for furniture, cabinetry, and interiors. Proudly made in the USA, the company is known for its innovative designs, high-quality craftsmanship, serving both residential and commercial design industries.
